9 Read the following passage and then answer the questions?

Learning a new language doesn't always mean sitting in the classroom and studying language books. In fact, language teachers suggest you to do plenty of extra learning outside of school, places like your home or a library near you. There are a number of ways to improve your understanding of the language. For example, if you want to improve your English or any other foreign languages, you should consider some of these hints. If you add a few of these ideas to your day-to-day language learning, you'll certainly see some improvement.

- Get a good dictionary. A dictionary is your best friend while you're learning English.
- Read a lot. Reading is a great way of practicing your English in your own time. Books and newspapers are useful to improve your English.
- Label things in your house. Buy a pack of labels and then write the name of items on them, such as phone, window, etc. This is great for beginners.
- Practice English whenever you can. It's important that you don't leave your English learning inside the classroom. Make sure you never escape learning.
- Write every day. Try and write something every day using new words and grammar that you've learned.
- Watch television and movies and listen to good radio programs.
- Practice every day. Make yourself a study plan. Decide how much time a week you are going to study.
- Don't be afraid to make mistakes. Be confident when speaking or writing in English.
- Practice all four language skills: Reading, writing, speaking and listening.
